

# The Future of Diabetes In the School Setting

Based on your feedback, the goal of this educational event is to provide the most up-to-date information regarding children with diabetes.

## TARGET AUDIENCE

This program is designed for the following health care providers responsible for children in school:

- School Nurses
- Other staff that deal with students with diabetes on a daily basis

**Space is Limited to 175 Participants**

**\*Priority given to School Nurses**

## LEARNING OUTCOMES

- School Nurses will be able to explain the benefits and functions of new diabetes management technologies and therapies for students with diabetes.
- School Nurses will be able to assist those students who are at risk for psycho-social problems due to the emotional burden of diabetes.

## REGISTRATION

- **\$10 registration fee**
- **Registration is required**
- **Call 630.527.6363 or on-line:**  
<https://www.eehealth.org/classes-events>

Dinner, program presentations, and education materials will be provided.

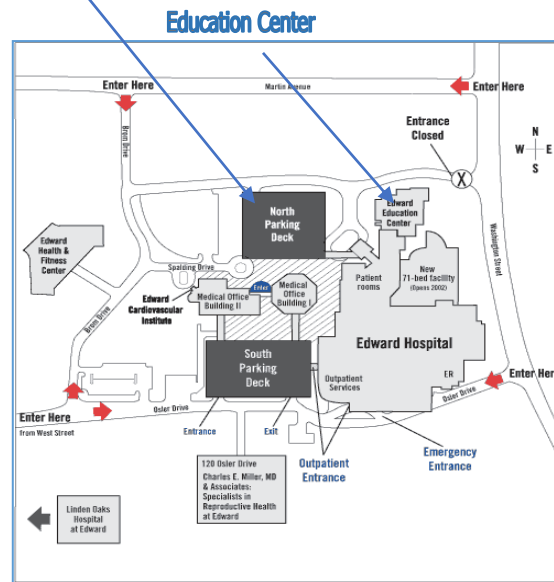

You will have an opportunity to view reports and speak with the volunteer school nurses who took part in wearing a continuous glucose monitor, as well as speak with special guest Tim Ryan with AMIR Foundation about the opioid epidemic.

A product fair by multiple company representatives will take place during dinner.
